IN FAIRNESS RANGE
17/22 people (2025: 62.5%)

28.7%

BOT ACCEPTANCE RATE
+80% jump (2025: 16.2%)

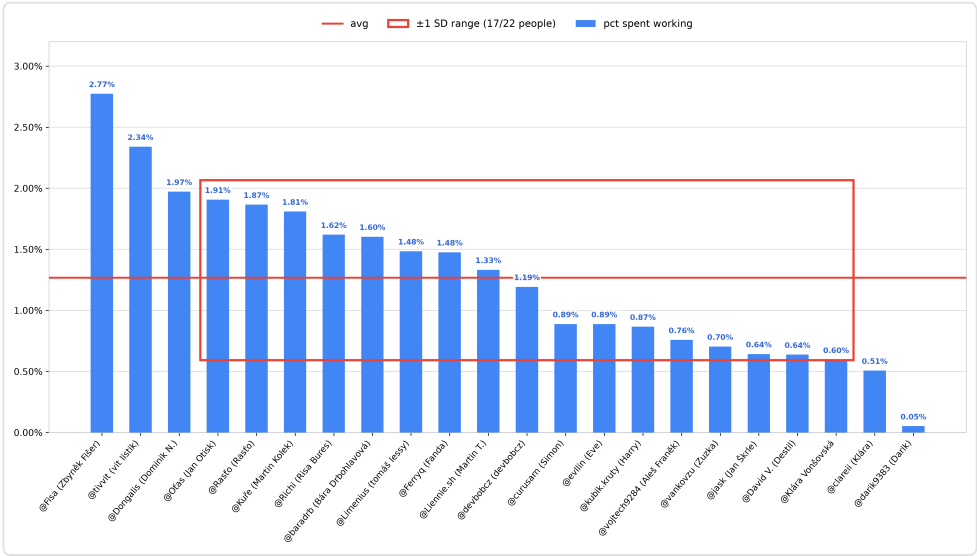

Key Takeaway: The chores management system achieved its fairest outcome to date. In 2026, **77.3% of attendees** finished within one standard deviation of the mean (up from 62.5% in 2025). Responsiveness increased dramatically—attendees accepted 80% more chore assignments, and voluntary chore logging surged from 12 to 51 sessions!

Macro Trends Across Events

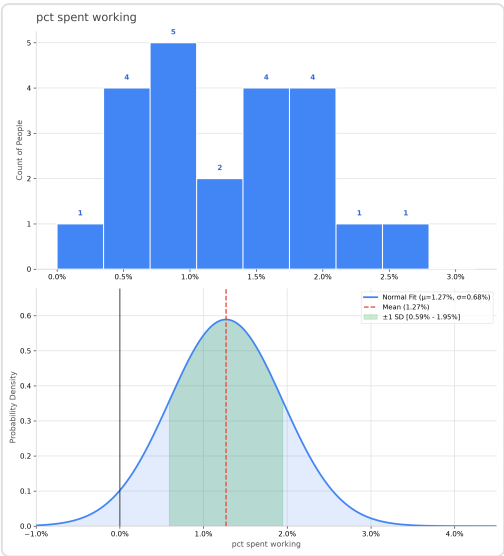

Garage Trip 2026: % Spent Working & Fairness Zone

The red rectangle designates the ± 1 standard deviation range from the mean ($1.27\% \pm 0.68\%$), covering 17 out of 22 attendees.

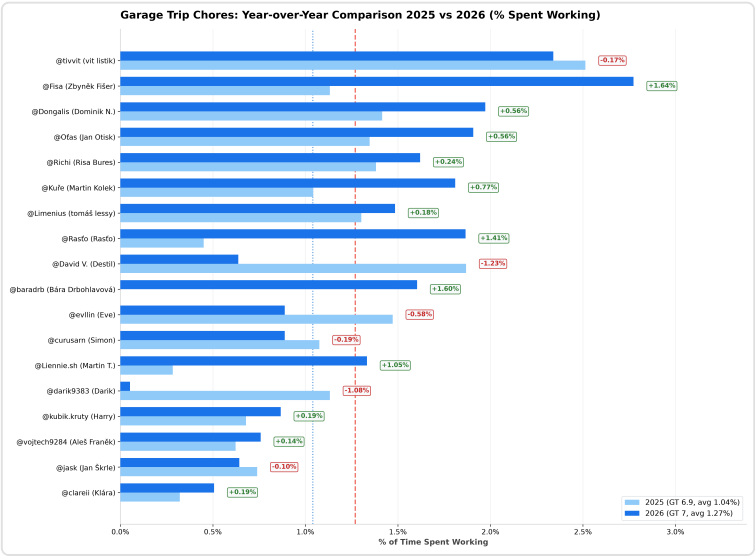

Frequency Density & Gaussian Fit (2026)

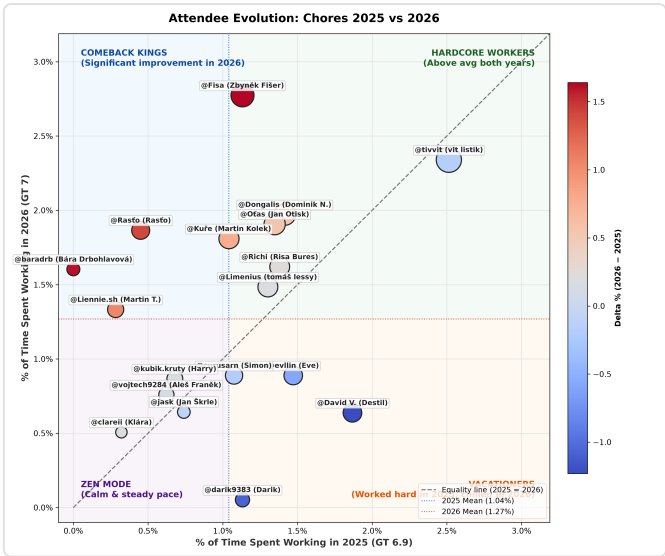

Year-over-Year Comparison: 2025 vs 2026 (18 Attendees)

Performance comparison of all 18 returning participants, including percentage point deltas.

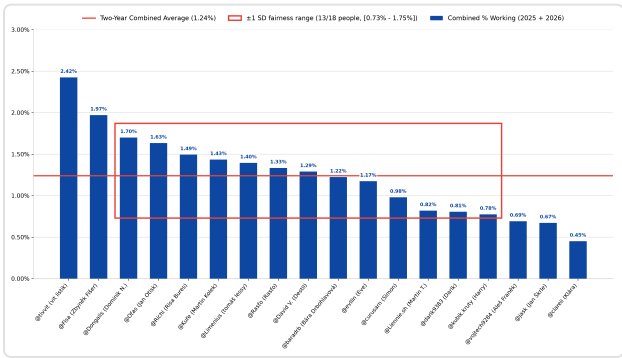

Attendee Evolution: Behavioral Quadrants

All-Time Combined Fairness Band (2025 + 2026)

Across both events, the law of large numbers reduced the standard deviation to just 0.51%, demonstrating multi-year equity convergence.

All-Time Two-Year Leaderboard (18 Returning Attendees)

#	Attendee	Combined %	Total Work	Chores	Presence	2025 %	2026 %	Delta

Official Multi-Year Awards & Hall of Fame

All-Time Chore King (Grand MVP): @tivvit (vit listik)

Unrivaled top-tier consistency: 222 min in 2025 (2.51%) and 216 min in 2026 (2.34%). Totaling **438 minutes (7.3 hours)** of **productive chore work** across 24 chores. The bedrock of cabin operations.

Most Improved (Comeback of the Century): @Fisa (Zbyněk Fišer)

Surged from an average 1.13% (100 min) in 2025 to **2.77% (256 min)** in 2026! A massive **+1.64 percentage point leap**, earning 2026 MVP honors. Closely followed by @Rasťo (+1.41% jump from 25 to 172 min!).

Passing of the Crown (Mr. Average): @Kuře @Liennie.sh

2025 median master @Kuře (Martin Kolek) stepped up to 1.81% in 2026, passing the crown. The newly anointed Mr. Average 2026 is **@Liennie.sh (Martin T.)** with 1.33% (spot on the 1.27% mean), climbing +1.05% from last year's 25 min!

The Vacationer (Golden Slacker): @David V. (Destil)

A podium finisher in 2025 with 1.87% (165 min), Destil kicked his feet up in 2026 with a relaxing 0.64% (50 min, delta **-1.23%**). Having banked his hours early, he enjoyed a well-earned break!

Stealth Master Evolution: @Darik

Shifted from a solid 100 min (1.13%) in 2025 to pure ghost mode in 2026: 2 minutes worked (0.05%), 9 timeouts, 0 acks, and a discreet Tuesday 9:00 AM exit. Masterclass in stealth!

408 Request Timeout Champion: @Klára Vonšovská (53 timeouts) & @jask (2x Refuse)

Klára set an all-time record by ignoring 53 of 57 chore pings (93% timeout rate). Meanwhile, jask demonstrated unwavering defiance as the only attendee to repeatedly hit 'Refuse'.
